MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM:

[REDACTED]

25X1

Director, Intelligence Community Staff

SUBJECT:

DoD Computer Security Center Comments on DCI SAFEGUARDS

1. Attached per your request, are two versions of a proposed response to Don Latham's note of 10 June which sent us a copy of the DoD Computer Security Center (CSC) comments on the DCI SAFEGUARDS. The difference between the two versions is that the former includes, as an attachment, a summary of our analysis of CSC's review, while the latter simply alludes to that analysis.

2. In the interim we have been meeting with [REDACTED] Computer Security Center, NSA, in an effort to sort out procedural and bureaucratic issues so that we can get on with the business of computer security. We are told that, until [REDACTED] of the IHC staff briefed him last week, [REDACTED] did not realize that the SAFEGUARDS are applicable only to near-term fixes for the specifically identified critical systems, a misunderstanding that is apparent in his letter to Don Latham.
